

INTRODUCING THE

# POTLIGHT

Advanced deep drop fishing light

FISHTEK  
MARINE

Increase  
your catch  
rates

TECHNOLOGY THAT WORKS FOR FISHERMEN AND THE ENVIRONMENT

## Advanced deep drop fishing light

Proven to increase catch rates in pot and trap fisheries

### Low Cost and Durable

Rapid payback on investment.

### Durable

Depth rated to 1200m.

### Easy to Use

Fixes to the inside of the pot.

### Long Battery Life

500+ hours battery life

### Auto Immersion Switch

On/off in water.

Available in a range of colours:

flashing or constant

Green, white, blue and disco.

# POTLIGHT (PAT.) FITTING INSTRUCTIONS

## BATTERY REPLACEMENT (ALSO SEE VIDEO ON WEBSITE)

Alkaline AA batteries should be used and not Lithium Cells.

Use a small flat head screwdriver and prise off the end cap

Replace old batteries with new batteries ensuring the polarity is correct

Click the endcap back onto the PotLight. Test the light is working

To prolong the life of the PotLight, batteries should be replaced in dry and dirt free environments.

## FITTING THE POTLIGHT INTO POTS AND TRAPS

PotLights should be attached to the inside and centre of the pot/trap (e.g. close to bait bags). Lights can be attached to the insides of the pots with either cable ties or a conventional snap and split ring.

## TECHNICAL SPECIFICATIONS

Dimensions	105mm x 40mm x22mm
Weight (with batteries)	105 grams
In-water weight	34 grams
Depth rating	1200 m
Battery Type	2 X AA Alkaline
Immersion Switch	Automatic Immersion switch
Attachment hole diameter	5.5 mm
PotLight housing	Tough, injection moulded polycarbonate

## COLOUR OPTIONS

Type	Colour	Battery Life**
Constantly on	Green	500 hours
	White	500 hours
	Blue	500 hours
Flashing	Green	800 hours
	White	800 hours
